PROFESIONAL PROFILE

Web Developer with over 5 years of backend experience. Proficient in languages such as Python, Java, PHP, Node.js, and .NET/C#, as well as relational and non relational databases. Focused on building scalable solutions and optimizing performance, always applying coding best practices and result oriented.

WORK EXPERIENCE

FULL STACK DEVELOPER | FREELANCER | JANUARY 2023 -- PRESENT

- Developed dynamic web applications using JavaScript, PHP, Python, and .NET/C#, integrating with MySQL for data management.
- Designed responsive, interactive user interfaces with HTML, CSS, Bootstrap, and modern JavaScript frameworks.
- Built and optimized RESTful APIs, automated workflows, and implemented scalable, client-focused solutions.

FULL STACK DEVELOPER | VERSATILS | JUNE 2020 – JUNE 2023

- Designed and maintained full-stack systems using React, Node.js, PHP, and databases like MySQL and MongoDB.
- Led the development of RESTful APIs and created responsive interfaces with Tailwind and Bootstrap.
- Implemented performance improvements, scalability solutions, and migrations to microservices for high-impact projects.
